EXPERIENCE

Contra Costa Coffee, Walnut Creek, CA — *Product Designer*

MAY 2025 - PRESENT

- Consulting with users and owners to refresh the website aesthetics and digital outreach strategy, leading to a 50% increase in monthly site traffic.
- Conducting an intensive market study by researching, prototyping, testing, and iterating upon the existing website based on user feedback and trends .
- Developing a new online shop and subscription service in Squarespace, allowing users to intuitively personalize their mobile coffee bean orders.

Life Yessence Academy, Remote — *UX Designer*

OCT 2024 - MAY 2025

- Reimagined the outdated website, employing user research gained through interviews and experimental design to pass off an empathy-driven and technically comprehensive design to the software engineers.
- Provided UI assets, Logos, and Style Guides applied in the final website.

Arktura, Gardena, CA — *Product Development Engineer*

MAY 2022 - APRIL 2024

- Launched in-house UV Printer Workstation, managing priorities, designing experiments, establishing internal standards, and leading research and development to reduce annual production costs by 20%.
- Streamlined production by applying LEAN manufacturing principles, adjusting engineering drawings, directing training modules, establishing new internal ordering systems, and providing hands-on production support.
- Contributed to award winning SoftGrid, DeltaDrop, and Arborisa product lines through research, modeling, prototyping, testing, and material management.

Tesla, Fremont, CA — *Mechanical Design Engineer*

JULY 2021 - APRIL 2022

- Created mechanical designs for Model 3 and Y control panel architecture, interfacing globally with cross-functional teams, resolving manufacturing issues, improving mechanical quality, and production costs by up to 10%.
- Collaborated internationally with suppliers at varying levels to globally coordinate and integrate new product introductions, leading to 5% reduction in production time and significantly reduced errors across multiple factories.

EDUCATION

UC Berkeley Extension, Berkeley, CA — *UX/UI Design Certificate*

APRIL 2024 - OCT 2024

Northwestern University, Evanston, IL — *B.S. Manufacturing and Design Engineering*

SEP 2017 - JUN 2021

SKILLS

User Research

CNC Machining/ Programming

Code Development

Gamification/ Game Design

Ideation

Interaction Design

Design Delivery

Wireframing

Prototyping

Storyboarding

Visual Storytelling

AI Prompt Engineering

TOOLS

Figma

Canva

Squarespace

Miro

Adobe Creative Cloud

CAD (Solidworks, NX, CATIA, Rhino)

Illustration (Procreate, Adobe)

3D Sculpting (Blender, Nomad)

3D Printing

AI Literacy

CODE PROFICIENCY

Python

HTML/ CSS/ Java

MATLab

Godot

G-Code
